

Coronavirus Update

Dear Member

The Board and I wanted to update you on Fengrain's activities during this current period of uncertainty with both the Coronavirus and continued challenges with the weather and plantings.

You have no doubt been the recipient of a multitude of correspondence with respect to the virus issue and therefore we will not seek to repeat many of the information updates. Needless to say, much like yourselves, Fengrain is considered part of the food supply industry and is striving to support the industry by remaining operational, whilst ensuring the protection and safety of all its staff and stakeholders. Fengrain is adhering to government's advice and protocols. Fengrain remains operational for your administration, contracts and store loadings. However, please keep updated with the website.

Below are key contact details if required

Kevin Cooper	kevin@fengrain.co.uk
Lucie Kisby	lucie@fengrain.co.uk
Danny Ling	danny@fengrain.co.uk
Jonni Henson Frontier	jonni.henson@frontierag.co.uk

With the continued difficulty on plantings Fengrain and Frontier are extending the return date for your grain returns to 20th April and store commitment to the end of April.

We hope this will help you. Your Frontier farm trader will be able to assist you, if required.

Many thanks

**Kevin Cooper
Managing Director**
